Recycling and Environment
March 2006
Engineers in Military

ATTENTION TO ALL IEM MEMBERS

With immediate effect, all participants attending Seminars/Courses/Visits conducted/organised by IEM must settle their registration fees before the date of the event(s).

Participants using Government Local Orders would also need to ensure that payment is made on the day of registration, otherwise, the participants would be required to pay at registration. Receipt would be issued to enable the participant to make his claim. It is with regret that IEM has to make the decision as IEM has not been successful in collecting the large amount of outstanding payment from the registration fees due at the end of the year.
