The grant for the upgrading of IT Infrastructure was utilised to develop a web portal and improve the IT equipment in the Secretariat. The Hon Secretary then thanked MIDA on behalf of IEM for the grant.

4.13 IEM Web Portal

IEM web portal was expected to be ready in August 2010. This would enable IEM's services to be more efficient and allow members to have better access to IEM's services.

4.14 Upcoming Events

The upcoming events for the year 2010:

- Engineering Week from 19 – 24 April 2010
- 5th Malaysian Chem-E-Car Competition to be held on 22 July 2010
- IEM Family Day to be held on 25 July 2010
- Brownfield Conference in September 2010

4.2 Dato' President thanked the Hon Secretary for his presentation on the Annual Report and invited the members for any comments or questions.

4.2.1 Ir. Tham Kum Weng (F01513) commented on the engineering discipline – Civil and Structural on page 80. He questioned as to what qualification was required in order to be emplaced in the said discipline. Ir. Yim Hon Wa (F08247) informed that this category of discipline had been there for a long time and agreed that steps would be taken to look into better streamlining of discipline emplacement.

Ir. Tham Kum Weng continued to question on whether a person under the said discipline would be able to practice in Civil or Structural engineering or both. Ir. Vincent Chen Kim Kieong (F05128) explained that the emplacement of discipline was done by the Board of Engineers, Malaysia (BEM) based on the engineering degree. It was noted that this started approximately five (5) to ten (10) years ago where there was a degree in Civil and Structural Engineering and as such, the BEM had emplaced the graduate in the discipline of Civil and Structural engineering. To avoid confusion, IEM had at the time decided to follow the discipline emplaced by the BEM.

4.2.2 Ir. Yap Soon Hoe (F04086) commented that the contribution to pay the balance of the loan of RM12,000,000 was slow more so with the acquisition of properties by the IEM Branches. He queried on whether the rental from the Wisma IEM would be able to sustain the loan and secondly since MIDA had granted RM1,000,000 to IEM on the IT infra-structure, would IEM be able to request for a grant from the Government to assist in settling the bank loan.

Ir. Tan Yean Chin (F11712) explained to the AGM that the rental would be able to cover the loan. He further clarified that the other branches had their own ways to settle their loans. In view of applications for the building fund, the Task Force on Fund Raising for Wisma IEM had been working hard to solicit contribution from both private companies and government agencies.

Ir. Yap Soon Hoe (F04086) also queried as to whether it was alright to allow the branches to acquire their own properties. Ir. Tan Yean Chin (F11712) further explained that the branches were allowed to do so, as long as they were active and would be able to sustain the loan. Moreover, IEM HQ would thoroughly check on the acquisition before allowing the branches to purchase the property.

Dato' President then continued to explain that activities at most of the branches had been increasing with more member participation due to the CPD requirement. This had led to a surplus in the revenue. The example cited was that of the Perak Branch being able to put up an initial payment of RM150,000 for their property purchased at RM300,000. It was reiterated that even if the Branch did not purchase their own building, they had to be housed at rented premises and were paying rental. Dato' President further informed the AGM that Council would support the acquisition so long as there was no financial commitment from the HQ.

Concerning the loan of RM12.5 million, of which IEM had settled approximately RM3 million, Dato' President informed that the Task Force on Fund Raising has been working hard to solicit donations as well as appealing to the Government for tax exemption to the Building Fund contributors.

- 4.2.3 Ir. Yee Thien Seng (M03177) pointed out on page 97 regarding the list of Position Papers, he noticed that the Position Paper on "Policy Guidelines on Hillside Development" was not listed. As the Chief Drafter for the said Position Paper Committee, he queried whether the non-listing of the Position Paper was a result of the difference in opinion with the former IEM President.

Dato' President explained that the said list of Position Papers was not updated and assured that all general views from the different stakeholders would be taken into consideration irrespective of whether there were different opinions. It was agreed that in future the list of the Position Papers would be updated.

Dato' President also informed the AGM that there would be a meeting on 3 May 2010 with the Ministry of Housing and Local Government to discuss on the few issues.

- 4.2.4 Ir. Soo Tian Tiong (M04575) commented on item 7.0 on page 55 regarding the title "Ir.". It was noted that BEM had been using the title "Ir." without the "fullstop".

Dato' President thanked Ir. Soo Tian Tiong (M04575) for his comments and agreed that the IEM representatives to the Board would raise this issue at the next Board meeting as he felt that the issue should be taken up by the Board as it concerned the Registration of Engineers Act.

As there were no further comments or questions from the floor, Ir. Yap Soon Hoe (F04086) proposed that the Annual Report be adopted. The motion was seconded by Ir. Yam Teong Sian (F05613) and thereafter accepted by the AGM.

5.0 ACCOUNTS FOR THE YEAR ENDED 31 DECEMBER 2009

- 5.1 The President then invited the Honorary Treasurer, Ir. Tan Yean Chin (F11712) to present the Statement of Accounts for The Institution of Engineers, Malaysia for the period 1 January 2009 to 31 December 2009.

- 5.2 Ir. Tan Yean Chin (F11712) reported that for year 2009, the Institution's total income was RM4,179,495 which showed an increase of RM309,160 compared to 2008. This was due to the increase in the annual subscription (RM2,460,621) and the rental collected for Wisma IEM (RM1,232,958). Other contributors to the income were as follows:-

<i>Technical Divisions Income</i>	<i>RM111,815</i>
<i>Credit Card Commission</i>	<i>RM102,221</i>
<i>Secretariat Services Income</i>	<i>RM59,978</i>

- 5.3 The AGM noted that a number of the income sources had showed marked increase with annual subscriptions increased by 10%, rental income increased by 21% and credit cards commission increased by 13%. It was nevertheless reported that there was a drop of 52% for interest income of fixed deposits which was due to the restructuring of the Term Loan as well as a deficit in the Institutional Services.

- 5.4 The total expenses for 2009 was RM4,287,341. It was noted that the major expenses were from the Personnel Emoluments which was 38% while 16.6% was on Administrative Expenses.

The rests were on smaller items such as term loan interests (14%), depreciation (9.6%), branch subsidies (6.2%), subscriptions written off (5.6%), Bangunan Ingenieur (4.0%), Wisma IEM (2.5%) and inter-society activities (0.3%).

- 5.5 Ir. Tan Yean Chin (F11712) further reported that the overall performance for 2009 was a deficit of RM66,492 as compared to a net deficit of RM227,472 in 2008.

- 5.6 Dato' President then proceeded to invite questions from the floor.

While waiting for the members to question on the Hon Treasurer's report, Dato' President appealed to members to support the IEM credit card, car and motor vehicle insurance, travel insurance and the professional indemnity insurance.

Ir. Choo Kok Beng (F02828) also informed the AGM that there was negotiation going on to change the current credit card provider - Direct Access to Alliance Bank due to the difference in commission being paid back to IEM.

Ir. Leow Kay Pin (M02859) commented that there should be an option for the members to switch to the new bank. He suggested that the current members could use the Direct Access credit card whereas the new members could opt to use the Alliance Bank credit card. However, Dato' President further explained that there was an exclusivity clause in the current agreement with Direct Access and IEM was negotiating for the removal of the said clause.

- 5.6.1 Ir. David Lai Kong Phooi (F09917) queried on the treatment of the Branch properties in the IEM accounts since the branch accounts were not consolidated into the main account and since all properties were purchased under the name of The Institution of Engineers, Malaysia.

Dato' President informed the AGM that the accounts from the branch was not consolidated into the main HQ accounts in view that the branches were to file their accounts separately to the State IRB.

Ir. Lee Weng Onn (F08103) further clarified that IEM provided subsidies to the branches which would be treated as expenses from IEM HQ. The properties acquired by the branches were purchased in the name of the Institution and as far as the properties were concerned, the expenditure and income were consolidated into the main account.

Ir. David Lai Kong Phooi (F09917) was still unsure of the procedure and hence reiterated on how the reconciliation works when other branches were not able to produce their accounts on time. Moreover, he queried that should the property acquisition be included into the main account, what about the liability of the bank loan. He commented that it would be very clear if the branches were to own their properties.

Ir. Lee Weng Onn (F08103) continued to explain that the IEM Constitution and Bylaws did not allow the branches to own properties. As far as the accounting was concerned, the properties purchased by the branches would be reflected as expenditure incurred in the IEM main account. He further explained that any donation contributed by the branches towards the property would be considered as capital reserve in the main account and property acquisition would be reconciled in the IEM main account.

- 5.6.2 Ir. Yap Soon Hoe (F04086) commented on the staff emoluments which contributed to 38% of the total expenses and whether it was similar in related industries and that the ratio against the members' subscription followed the industry norm and whether a comparison was made against the market. He felt that it was too high and he suggested that IEM should outsource as the cost would be cheaper.

Ir. Tan Yean Chin (F11712) explained that one had to look at the membership adding that although the cost to IEM would be cheaper if IEM were to outsource but it would be an expense to the members. He cited examples of other international institutions outsourcing their activities to private profit making organisers at the expense of its members which he felt should not be applied in IEM.

Ir. Yap Soon Hoe (F04086) further proposed that there should be a benchmark against other institutions on this issue. Dato' President pointed out that IEM is one of the largest professional institution and the activities carried out by IEM may not be the same with the smaller institutions. However, Dato' President reassured that a benchmark study would be done and the outcome would be reported at the next AGM.

Ir. Lee Weng Onn (F08103) further added that IEM had been benchmarking against other institutions. In addition, he also pointed out that members of Council, Excomm as well as the other Committees in the Institution serve on a voluntary basis and as the other expenditures were small. This indirectly projected the personnel emoluments as a very big chunk of the expenditure. He also cited some examples of the private companies that charged high fees (RM1000) for a one day course whereas IEM only charge approximately 1/3 or half of the fees.

- 5.6.3 Ir. Awangku Hidup Awangku Hosain (M03053) who was also the Internal Auditor noticed that the income for the seminars and conferences conducted for the year 2009 was not so good as compared to the previous year. He suggested that IEM should be organising more activities in 2010 and should set a target to achieve this. Dato' President thanked Ir. Awangku Hidup (M03053) for his comments and agreed that more activities should be organised by the Technical Divisions as well as the IEM Training Centre. In view of this, Dato' President also appealed to the members to buy more tables for the Annual Dinner as it was not too late.

- 5.6.4 Ir. Tham Kum Weng (F01513) commented that the Internal Auditor's report should be more comprehensive and not just two (2) sentences only. He suggested that in future the Internal Auditor's report should be longer with more comments from the Internal Auditor. Dato' President responded that IEM would take note of the comments.

- 5.6.5 Ir. Hoo Hok Kim (M01212) commented that the credit card income was quite substantial with an amount of RM102,000. He enquired on the income derived from insurance schemes.

Dato' President informed that insurance schemes had been sub contracted to the IEM Training Centre Sdn Bhd with the hope that they could run it more effectively to generate more income for IEM so that the building loan would be settled fast.

YBhg Datuk Ir. Rosaline Ganendra (F06033) further explained that approximately RM40,000 had been received from the Professional Indemnity Insurance whereas the motor vehicle insurance made approximately RM10,000 (10%). It was noted that the Professional Indemnity (PI) insurance covered about 30% of the market. Members were encouraged to take up the PI Insurance offered by IEM as the coverage was better compared to other insurance providers.

The AGM was also informed that there were plans to have another PI insurance policy for smaller consultancy firms later next year as the current PI insurance catered more for the larger organisations. The AGM was further informed that the Standing Committee on Welfare and Service Matters would also be looking into the Group Health Insurance.

- 5.6.6 Ir. David Lai Kong Phooi (F09917) commented on the financial statement from the IEM Training Centre Sdn Bhd which indicated a profit of RM278,769.48 from an income of RM1.3million which made up to 20% of the income. He queried whether the IEM Training Centre Sdn Bhd would be doing better for the next year as he felt that 20% of the income was considered very little.

Ir. Yim Hon Wa (F08247) informed that the IEM Training Centre Sdn Bhd would try to do better each year as Excomm had also proposed that the IEM Training Centre Sdn Bhd should organise more courses. He felt that it would not be advisable to charge a higher fee to the members due to the current market situation.

Proposed by Ir. David Lai Kong Phooi (F09917) and seconded by Ir. Dr Muhamad Fuad Abdullah (F07442), the Financial Statements were adopted by the AGM.

- 5.7 Dato' President then proceeded to invite Ir. Tan Yean Chin (F11712), the Honorary Treasurer to present the Education Fund Account as stated from pages 150 to 156.

Ir. Tan Yean Chin (F11712) reported that the donation received amounted to RM45,429 in 2009 compared to RM319,985 in 2008. The drop was due to a donation of RM300,000 from Malakoff Corporation in 2008. Excluding the said amount, the normal donation from the members had increased from RM19,985 in 2008 to RM45,429 in 2009.

As for the expenditure, there was an increase in sponsorship amounting to RM102,255 in 2009 compared to RM1,500 in 2008.

The overall performance was a deficit of RM60,377 and that was consistent with the Inland Revenue Board's spending rule where there was need to spend at least 50% of the donation received in the previous year to satisfy the requirement of the Education Fund's tax exemption status. The Hon Treasurer explained that the Education Fund should be showing a deficit so as to comply with the IRB.

Ir. Soong Peng Soon (M06460) proposed that the Education Fund accounts be adopted. The motion was seconded by Ir. Leow Kay Pin (M07826). The AGM unanimously adopted the accounts as presented.

4.2 Dato' Yang Dipertua mengucapkan terima kasih kepada Setiausaha Kehormat kerana pembentangan Laporan Tahunan dan menjemput ahli untuk mengemukakan komen atau soalan.

- 4.2.1 Ir. Kum Tham Weng (F01513) telah memberi komen tentang disiplin kejuruteraan – Awam dan Struktur pada muka surat 80. Beliau bertanya mengenai kelayakan yang diperlukan untuk diletakkan di bawah disiplin tersebut. Ir. Yim Hon Wa (F08247) memberitahu bahawa kategori disiplin ini memang sudah lama sedia ada dan bersetuju bahawa langkah-langkah akan diambil untuk melihat bagaimana penentuan aliran disiplin dibuat dengan lebih baik.

Ir. Kum Tham Weng seterusnya bertanya apakah seseorang di bawah disiplin tersebut boleh beramal dalam bidang kejuruteraan Awam atau Struktur atau kedua-duanya. Ir. Vincent Chen Kim Kieong (F05128) menjelaskan bahawa ketetapan disiplin adalah dilakukan oleh Lembaga Jurutera Malaysia (BEM) berdasarkan ijazah kejuruteraan. Adalah diambil maklum bahawa sekitar lima (5) hingga sepuluh (10) tahun yang lalu, terdapat ijazah kejuruteraan dalam Awam dan Struktur dan dengan demikian, BEM telah meletakkan graduan berkenaan dalam disiplin kejuruteraan Awam dan Struktur. Untuk mengelakkan kekeliruan, IEM ketika itu telah memutuskan untuk mengikut penetapan disiplin oleh BEM.

- 4.2.2 Ir. Yap Soon Hoe (F04086) mengulas mengenai sumbangan yang perlahan bagi pembayaran baki pinjaman sebanyak RM12,000,000, lebih lagi dengan pemilikan hartanah oleh cawangan-cawangan IEM. Beliau bertanya samada sewa dari Wisma IEM mampu menampung bayaran pinjaman dan keduanya memandangkan MIDA telah memberikan geran sebanyak RM1,000,000 untuk IEM untuk prasarana IT, maka adalah mungkin IEM memohon geran dari Kerajaan sebagai bantuan untuk menjelaskan pinjaman bank.

Ir. Tan Yean Chin (F11712) menjelaskan kepada MAT bahawa sewa tersebut mampu menampung pinjaman berkenaan. Beliau selanjutnya menjelaskan bahawa cawangan-cawangan lain mempunyai cara sendiri untuk menjelaskan pinjaman mereka. Memandangkan permohonan untuk tabung bangunan, Pasukan Petugas Kutipan Dana untuk Wisma IEM telah bekerja keras bagi mengumpul sumbangan samada dari syarikat swasta dan agensi kerajaan.

Ir. Yap Soon Hoe (F04046) juga bertanya apakah betul untuk membenarkan cawangan-cawangan memiliki bangunan sendiri. Ir. Tan Yean Chin (F11712) selanjutnya menjelaskan bahawa cawangan dibenarkan berbuat demikian, asalkan mereka aktif dan akan mampu menampung pinjaman. Juga, Ibu Pejabat IEM akan meneliti cadangan pemilikan sebelum membenarkan cawangan-cawangan membeli hartanah.

Dato' Yang Dipertua selanjutnya menjelaskan bahawa aktiviti di kebanyakan cawangan telah meningkat dengan peningkatan penyertaan ahli disebabkan oleh keperluan CPD. Hal ini telah menyebabkan kelebihan hasil pendapatan. Contoh yang disebut adalah Cawangan Perak yang mampu membuat bayaran awal sebanyak RM150,000 untuk membeli bangunan berharga RM300,000. Dato' Yang Dipertua menegaskan sekiranya Cawangan tidak membeli bangunan sendiri, mereka perlu juga menyewa dan membayar sewa. Dato' Yang Dipertua selanjutnya memberitahu MAT bahawa Majlis akan menyokong pemilikan hartanah selagi tiada komitmen kewangan daripada Ibu Pejabat.

Mengenai pinjaman RM12.5 juta, di mana IEM telah membayar lebih kurang RM3 juta, Dato' Yang Dipertua memberitahu bahawa Pasukan Petugas Kutipan Dana telah bekerja keras untuk mendapatkan derma serta membuat rayuan kepada Kerajaan untuk pengecualian cukai bagi penyumbang kepada Tabung Bangunan.

- 4.2.3 Ir. Yee Thien Seng (M03177) telah merujuk kepada muka surat 97 mengenai senarai Kertas Pendirian. Beliau perhatikan bahawa Kertas Pendirian mengenai "Policy Guidelines on Hillside Development" tidak disenaraikan. Sebagai Ketua Penulis Draf kepada Jawatankuasa Kertas Pendirian tersebut, beliau bertanya samada sebab Kertas Pendirian tersebut tidak disenaraikan adalah kerana perbezaan pendapat dengan bekas Yang Dipertua IEM.

Dato' Yang Dipertua menjelaskan bahawa senarai Kertas Pendirian berkenaan tidak dikemaskini dan menegaskan bahawa semua pandangan dari pelbagai pihak berkepentingan akan diambil kira walaupun terdapat perbezaan pendapat. Adalah dipersetujui bahawa di masa akan datang senarai Kertas Pendirian akan dikemaskini.

Dato' Yang Dipertua juga memberitahu MAT bahawa satu mesyuarat akan diadakan pada 3 Mei 2010 dengan Kementerian Perumahan dan Kerajaan Tempatan untuk membincangkan beberapa isu.

- 4.2.4 Ir. Soo Tian Tiong (M04575) memberi komen tentang perkara 7.0 pada muka surat 55 mengenai gelaran "Ir.". Adalah diperhatikan bahawa BEM telah menggunakan gelaran "Ir." tanpa "titik".

Dato' Yang Dipertua mengucapkan terima kasih kepada Ir. Soo Tian Tiong (M04575) kerana komen beliau dan bersetuju bahawa wakil IEM di Lembaga akan membangkitkan isu tersebut dalam mesyuarat Lembaga akan datang kerana beliau merasakan isu itu seharusnya ditangani oleh Lembaga kerana ia berkaitan dengan Akta Pendaftaran Jurutera.

Memandangkan tiada lagi komen atau soalan dari sidang mesyuarat, Ir. Yap Soon Hoe (F04086) mencadangkan bahawa Laporan Tahunan disahkan. Cadangan ini disokong oleh Ir. Yam Teong Sian (F05613) dan selanjutnya diterima oleh MAT.

5.0 AKAUN BAGI TAHUN BERAKHIR 31 DISEMBER 2009

- 5.1 Yang Dipertua selanjutnya menjemput Bendahari Kehormat Ir. Tan Yean Chin (F11712) untuk membentangkan Penyata Kewangan Institusi Jurutera Malaysia bagi tempoh 1 January 2009 sehingga 31 Disember 2009.

- 5.2 Ir. Tan Yean Chin (F11712) melaporkan bahawa bagi tahun 2009, jumlah pendapatan Institusi adalah RM4,179,495 yang menunjukkan peningkatan sebanyak RM309,160 berbanding tahun 2008. Ini disebabkan oleh peningkatan bayaran yuran tahunan (RM2,460,621) dan sewa yang dikumpul untuk Wisma IEM (RM1,232,958). Penyumbang lain untuk pendapatan tersebut adalah seperti berikut:-

<i>Pendapatan Bahagian Teknikal</i>	<i>RM111,815</i>
<i>Komisen Kredit Kad</i>	<i>RM102,221</i>
<i>Pendapatan Perkhidmatan Sekretariat</i>	<i>RM59,978</i>

- 5.3 MAT mencatatkan bahawa sejumlah sumber pendapatan telah menunjukkan peningkatan dengan yuran tahunan sebanyak 10%, pendapatan sewa meningkat sebanyak 21% dan komisen kad kredit meningkat sebanyak 13%. Walaubagaimanapun dilaporkan bahawa terdapat penurunan sebanyak 52% dari faedah simpanan tetap disebabkan oleh penstrukturan semula Pinjaman Jangka serta defisit dalam Perkhidmatan Institusi.

- 5.4 Jumlah perbelanjaan untuk 2009 adalah RM4,287,341. Adalah diperhatikan bahawa jumlah terbesar perbelanjaan adalah Emolumen Pekerja sebanyak 38%, sementara 16.6% adalah Perbelanjaan Pentadbiran.

Bakinya adalah untuk perkara yang lebih kecil seperti faedah pinjaman (14%), penyusutan nilai (9.6%), subsidi untuk cawangan (6.2%), yuran tahunan yang dilupuskan (5.6%), Bangunan Ingenieur (4.0%), Wisma IEM (2.5%) dan aktiviti antara persatuan (0.3%).

- 5.5 Ir. Tan Yean Chin (F11712) selanjutnya melaporkan bahawa prestasi keseluruhan untuk tahun 2009 adalah defisit sebanyak RM66,492 berbanding dengan defisit bersih RM227,472 pada tahun 2008.

- 5.6 Dato' Yang Dipertua kemudian menjemput pertanyaan daripada sidang mesyuarat.

Sementara menunggu ahli untuk mengemukakan soalan kepada Bendahari Kehormat, Dato' Yang Dipertua merayu kepada ahli untuk menyokong kad kredit IEM, insurans kereta dan kenderaan bermotor, insurans perjalanan dan insurans gantirugi profesional.

Ir. Choo Kok Beng (F02828) juga memberitahu MAT bahawa perbincangan sedang dilaksanakan mengenai penukaran pembekal perkhidmatan kad kredit sedia ada daripada Direct Access ke Alliance Bank kerana perbezaan komisen yang dibayar kepada IEM.

Ir. Leow Kay Pin (M02859) mengulas bahawa ahli harus diberi pilihan untuk beralih ke bank yang baru. Beliau menyarankan agar ahli sekarang menggunakan kad kredit Direct Access manakala ahli baru boleh memilih menggunakan kredit kad Bank Alliance. Namun, Dato' Yang Dipertua menjelaskan lagi bahawa terdapat klausa eksklusiviti dalam kontrak sedia ada dengan Direct Access dan IEM sedang berunding untuk mengeluarkan klausa tersebut.

- 5.6.1 Ir. David Lai Kong Phooi (F09917) bertanya tentang kedudukan harta cawangan dalam akaun IEM memandangkan akaun cawangan tidak digabung ke dalam akaun utama sedangkan semua harta cawangan dibeli di bawah nama Institusi Jurutera Malaysia.

Dato' Yang Dipertua memberitahu MAT bahawa akaun cawangan tersebut tidak digabungkan dengan akaun Ibu Pejabat memandangkan cawangan perlu memfailkan akaun secara berasingan kepada Lembaga Hasil Negeri.

Ir. Lee Weng Onn (F08103) seterusnya menjelaskan bahawa IEM menyediakan subsidi untuk cawangan-cawangan yang dikira sebagai perbelanjaan Ibu Pejabat. Hartanah yang diperolehi oleh cawangan adalah di atas nama Institusi dan bagi hartanah berkenaan, perbelanjaan dan pendapatan adalah digabungkan dengan akaun utama.

Ir. David Lai Kong Phooi (F09917) masih meragui prosedur berkaitan dan menegaskan bagaimana mungkin penyelarasan akaun berlaku sedangkan cawangan-cawangan tidak mampu menyediakan akaun pada waktunya. Selain itu, beliau mempersoalkan jika harta pemilikan itu dimasukkan ke dalam akaun utama, bagaimana dengan liabiliti pinjaman bank. Beliau mengulas bahawa keadaan adalah lebih jelas jika cawangan-cawangan yang memiliki harta mereka sendiri.

Ir. Lee Weng Onn (F08103) selanjutnya menjelaskan bahawa Perlembagaan dan Undang-Undang Kecil IEM tidak membenarkan cawangan memiliki harta mereka sendiri. Dari segi perakaunan, harta yang dibeli oleh cawangan akan dikira sebagai perbelanjaan di dalam akaun utama IEM. Beliau seterusnya menjelaskan bahawa sebarang derma oleh cawangan-cawangan untuk hartanah akan dianggap sebagai modal simpanan dalam akaun utama dan pemilikan hartanah akan diselaraskan dalam akaun utama IEM.

- 5.6.2 Ir. Yap Soon Hoe (F04086) memberi komen tentang kos emolumen pekerja yang menyumbang sebanyak 38% daripada jumlah perbelanjaan dan samada ianya sama dengan industri berkaitan dan nisbahnya dengan yuran tahunan ahli mengikuti norma industri dan samada perbandingan telah dibuat dengan pasaran. Beliau merasakan perbelanjaan itu terlalu tinggi dan menyarankan agar IEM mendapatkan perkhidmatan secara outsource kerana ianya lebih murah.

Ir. Tan Yean Chin (F11712) menjelaskan bahawa seseorang harus melihat kepentingan keahlian, tambahnya walaupun perbelanjaan IEM menjadi lebih murah dengan cara outsource, namun ia akan menjadi beban kepada ahli. Beliau memberi contoh institusi antarabangsa lain yang menjalankan kegiatan mereka secara outsource kepada organisasi yang membuat keuntungan dengan membebaskan ahli dan beliau merasakan ini tidak harus berlaku pada IEM.

Ir. Yap Soon Hoe (F04086) selanjutnya mencadangkan agar arastanda dilakukan dengan institusi lain dalam hal ini. Dato' Yang Dipertua menyatakan bahawa IEM adalah merupakan salah satu institusi profesional terbesar dan kegiatan yang dijalankan oleh IEM mungkin tidak sama dengan institusi lain yang lebih kecil. Dato' Yang Dipertua memberi jaminan bahawa kajian arastanda akan dilakukan dan hasilnya akan dilaporkan dalam MAT akan datang.

Ir. Lee Weng Onn (F08103) pula menambah bahawa IEM sememangnya telah menandaaraskan terhadap institusi-institusi lain. Selain itu, beliau juga menyatakan bahawa Majlis, Jawatankuasa Eksekutif dan Jawatankuasa lain Institusi berkhidmat secara sukarela dan perbelanjaan lain adalah kecil. Keadaan ini secara tidak langsung menjadikan emolumen sebagai perbelanjaan yang sangat besar. Beliau juga menyebut beberapa contoh mengenai syarikat-syarikat swasta yang mengenakan bayaran tinggi (RM1000) untuk program satu hari sedangkan IEM hanya mengenakan kira-kira 1/3 atau setengah daripada kos tersebut.

5.6.3 Ir. Awangku Hidup Awangku Hosain (M03053) yang juga merupakan Juruaudit Dalam mendapati bahawa pendapatan dari seminar dan persidangan bagi sepanjang tahun 2009 kurang memuaskan berbanding dengan tahun sebelumnya. Beliau menyarankan agar IEM mengatur lebih banyak kegiatan pada tahun 2010 dan harus menetapkan sasaran untuk mencapainya. Dato' Yang Dipertua mengucapkan terima kasih kepada Ir. Awangku Hidup (M03053) kerana memberi komen dan bersetuju bahawa lebih banyak aktiviti harus dianjurkan oleh Bahagian Teknikal serta Pusat Latihan IEM. Sehubungan ini, Dato' Yang Dipertua merayu kepada ahli-ahli untuk membeli lebih banyak meja untuk jamuan Majlis Makan Malam Tahunan kerana belum terlambat.

5.6.4 Ir. Kum Tham Weng (F01513) mengulas bahawa laporan Juruaudit Dalam harus lebih menyeluruh dan tidak hanya dengan dua (2) ayat sahaja. Beliau menyarankan agar laporan Juruaudit Dalam harus lebih panjang dengan lebih komen di masa hadapan. Dato' Yang Dipertua menjawab bahawa IEM akan mengambil perhatian tentang perkara tersebut.

5.6.5 Ir. Hoo Hok Kim (M01212) mengulas bahawa pendapatan kad kredit agak besar dengan jumlah RM102,000. Beliau bertanya mengenai pendapatan yang diperolehi daripada skim insurans.

Dato' Yang Dipertua menyatakan bahawa skim insurans telah disubkontrak kepada Pusat Latihan IEM dengan harapan bahawa mereka boleh mengendalikannya dengan lebih efektif untuk menghasilkan lebih banyak pendapatan untuk IEM, agar pinjaman bangunan boleh di langsaikan dengan segera.

YBhg Datuk Ir. Rosaline Ganendra (F06033) selanjutnya menjelaskan bahawa sekitar RM40,000 telah diterima daripada Insurans Gantirugi Profesional manakala insurans kenderaan bermotor sekitar RM10,000 (10%). Adalah diperhatikan bahawa Insurans Gantirugi Profesional (PI) menguasai sekitar 30% pasaran. Ahli-ahli digalakkan untuk mengambil Insurans PI yang ditawarkan oleh IEM kerana perlindungannya adalah lebih baik berbanding dengan syarikat insurans yang lain.

MAT telah dimaklumkan bahawa ada rancangan untuk mengadakan polisi PI insurans lain bagi syarikat-syarikat perunding kecil pada tahun depan memandangkan PI insurans sekarang lebih sesuai untuk organisasi yang besar. MAT seterusnya dimaklumkan bahawa Jawatankuasa Tetap Kebajikan dan Hal Ehwal Perkhidmatan juga akan meninjau Insurans Kesihatan Berkumpulan.

5.6.6 Ir. David Lai Kong Phooi (F09917) memberi komen tentang laporan kewangan Pusat Latihan IEM yang menunjukkan keuntungan RM278,769.48 daripada pendapatan sebanyak RM1.3million iaitu sebanyak 20% dari pendapatan. Beliau bertanya samada Pusat Latihan IEM akan berprestasi lebih baik tahun hadapan kerana beliau merasakan 20% dari pendapatan adalah sangat kecil.

Ir. Yim Hon Wa (F08247) memberitahu bahawa Pusat Latihan IEM akan cuba melakukan yang lebih baik setiap tahun seperti juga dicadangkan oleh Jawatankuasa Eksekutif agar Pusat Latihan IEM menganjurkan lebih banyak kursus. Beliau merasakan adalah tidak wajar mengenakan yuran yang lebih tinggi kepada ahli memandangkan keadaan pasaran semasa.

Dicadangkan oleh Ir. David Lai Kong Phooi (F09917) dan disokong oleh Ir. Dr Muhamad Fuad Abdullah (F07442), Laporan Kewangan disahkan oleh MAT.

5.7 Dato' Yang Dipertua seterusnya menjemput Bendahari Kehormat, Ir. Tan Yean Chin (F11712) untuk membentangkan Akaun Tabung Pendidikan seperti ternyata dari muka surat 150 ke 156.

Ir. Tan Yean Chin melaporkan bahawa sumbangan yang diterima berjumlah RM45,429 pada tahun 2009 berbanding dengan RM319,985 pada tahun 2008. Penurunan tersebut disebabkan oleh sumbangan RM300,000 dari Malakoff Corporation pada tahun 2008. Tanpa mengira jumlah tersebut, sumbangan biasa dari ahli-ahli meningkat dari RM19,985 pada tahun 2008 ke RM45,429 pada tahun 2009.

Bagi perbelanjaan, terdapat pertambahan penajaan berjumlah RM102,255 pada tahun 2009 berbanding dengan RM1,500 pada tahun 2008.

Prestasi keseluruhan menunjukkan defisit RM60,377 dan ianya adalah selaras dengan peraturan Lembaga Hasil Dalam Negeri yang mengehendakkan perbelanjaan sekurang-kurangnya 50% dari sumbangan yang diterima pada tahun sebelumnya untuk memenuhi syarat penerusan status pengecualian cukai Tabung Pendidikan. Bendahari Kehormat menjelaskan bahawa Tabung Pendidikan seharusnya menunjukkan defisit bagi memenuhi peraturan Lembaga Hasil Dalam Negeri.

Ir. Segera Peng Soong (M06460) mencadangkan bahawa akaun Tabung Pendidikan disahkan. Cadangan ini disokong oleh Ir. Leow Kay Pin (M07826). MAT dengan sebulat suara mengesahkan akaun seperti yang dibentangkan.

6.0 PENGUMUMAN KEPUTUSAN PEMILIHAN BAGI MAJLIS SESI 2010/2011

Ir. Vivekananda Murugesu (G05808) mengulas bahawa menurut Kamus Oxford, gelaran atau singkatan untuk “Mr” dan “Dr” tidak memiliki “titik”. Oleh itu beliau merasakan “Ir.” perlu konsisten dengan penggunaan Bahasa Inggeris yang tepat di mana ianya tiada “titik”. Dato’ Yang Dipertua menegaskan sekali lagi bahawa isu ini adalah berkaitan dengan Akta Pendaftaran Jurutera dan terpulanglah kepada Lembaga untuk memutuskan samada akan menggugurkan “titik” dalam gelaran “Ir.”

2.4 A total number of 9,909 members were in arrears of subscription for the year 2010. Of these members, 7171 were student members of the Institution. The total arrears in subscription for this year alone was recorded at RM593,862.50. The Council would have to look into deleting these names from the membership register if the arrears were not settled by mid 2011.

2.5 For the session, a total of 224 members were reinstated. The details are as follows:

Fellow - 1
 Member - 96
 Graduate - 125
 Student - 2

3 THE COUNCIL AND THE EXECUTIVE COMMITTEE

3.1 During the session, five Council meetings and twelve monthly Excomm meetings were held to look into the management and affairs of the Institution.

3.2 I would like to record my sincere thanks to all members of the IEM Council, Executive Committee, Standing Committees, Sub Committees, Technical Divisions, Special Interest Groups, AdHoc and Special Committees for their valued contributions to the Institution.

4. STANDING COMMITTEE ON FINANCE

4.1 The Standing Committee chaired by the Deputy President, Ir. Vincent Chen continued with the role of monitoring the financial management of the properties and affairs of the IEM. Regular meetings were held on every 3rd Tuesday of the month.

4.2 Annual Subscription

The financing of the operating expenditure of the Institution continued to depend heavily on the payment of annual subscriptions which made up approximately 60% of the total annual income of the Institution. The income derived from activities of IEM was also used to partially finance the repayment of the term loan taken for the purchase of the new building. The rental income from the new building was totally taken up by the repayment of the term loan amounting to RM86,000 per month.

In accordance with the Bylaws, the Institution sent out one general notice and one reminder (the final reminder was sent by A.R Registered postage) to remind members to pay their annual subscriptions.

Many members had been conscientiously paying their subscriptions promptly enabling IEM to maintain 81% collection for the year 2009. IEM wished to take this opportunity to thank all members who had promptly settled their subscriptions for 2009 and 2010.

As at the end of the financial year 2009, there were however still 6,092 members in arrears of subscription for 2009.

4.3 Administrative Expenses

Every concerted effort was made to control the rate of increase of expenditure through more effective budgetary control measures without seriously impairing the provision of Secretariat services to all grades of membership. IEM continued with the cost saving measures of sending reminders for meeting via sms instead of telephone calls, sending minutes of meetings and notices via e-mail, printing a master calendar of activities each month instead of the previous individual flyers for every activity as well as printing of the Annual Report and IEM Directory in CD form to reduce postage cost.

This had resulted in the operating expenses (not inclusive of the financing expenses of Wisma IEM) being controlled at 82% of the income – compared to 87% in 2008.

4.4 ISO 9001:2002

The ISO Surveillance Audit by SIRIM QAS was carried out in March 2009 and re-certification was granted. Internal Audits were continuously conducted to ensure that the staff performed their duties/works in compliance to the procedures.

4.5 Bangunan Ingenieur

The ground floor of Bangunan Ingenieur continued to be rented to Pizza Hut. The Secretariat office was expanded to the second floor to provide more space for an increasing Secretariat staff strength. The Secretariat office also received a new look with furniture and partitions being put up to provide proper work stations. The work stations were donated by Hong Leong Bank Berhad.

The IEM Library maintained at the Basement would also be refurbished in February and March 2010.

4.6 Wisma IEM

Wisma IEM is currently tenanted by Maktab Kerjasama Malaysia who had taken up 85% of the available space at a monthly rental of RM81,000.00.

IEM is currently using the remaining space to conduct activities for members. The rooms available for IEM activities are C&S Lecture Room, TUS Lecture Room, IEM Function Room at the second floor and the Tan Sri Prof Chin Fung Kee Auditorium at the third floor.

Honorary Treasurer's Report

1. The 2010 fiscal Statement of Accounts and the Balance Sheet of the Institution are as presented. The accounts are maintained by the Standing Committee on Finance to which the Hon. Treasurer is the Secretary. It is also to be noted that with effect from 2010, the presentation of the fiscal Statement of Accounts and Balance Sheet had been changed to be in line with the Private Entity Reporting System as required by the External Auditors.
2. The total income for year 2010 is RM4,749,864 (including RM317,029 – net income from Institutional services) which is RM570,369 more than that of year 2009 due mainly to the increase in membership, dividend received from IEM Training Centre Sdn Bhd and improved performance of Technical Divisions. The main sources of income were annual subscriptions amounting to RM2,632,486, rental RM1,234,171, dividend from IEM Training Centre Sdn Bhd RM100,000, income from credit cards RM116,193, and income from Technical Divisions' activities amounting to RM435,987. IEM received a grant from MIDA amounting to RM472,100 to conduct the Outreach Programme on Exporting of Engineering Services and another RM1,000,000 for the upgrading of the IEM IT facilities to a web portal. To date, MIDA had issued payment of 50% of the total sum. The project had completed and disbursement of the balance is currently pending from MIDA.
3. The total expenditure of the Institution was RM4,270,158, which was RM98,313 more than that of year 2009. The main expenditure items were personnel emoluments RM1,680,768, administrative expenses RM752,295, maintenance of Bangunan Ingenieur (including utilities) RM201,858, repairs and maintenance of Wisma IEM RM56,610, term loan interest RM626,075 and Branch Subsidies RM260,466.
4. In addition, IEM was advised by the External Auditors that there was a need to consolidate the accounts of IEM Training Centre Sdn Bhd being a wholly owned subsidiary into the IEM fiscal Statement of Accounts and Balance Sheet. The consolidated figures are as per the figures in the Group columns.
5. The Institution, like other similar organizations, has been continually confronted with rising operational costs. Every effort is made to control the increase of expenditure through more effective financial control measures without impairing the services provided to all grades of membership.
6. In the meanwhile, the Institution through its many institutional services, are also working hard to generate much needed revenue from various paid activities such as seminars, courses, workshops, talks, conferences and also exhibitions. Income generated from these activities will go toward the building fund and also to alleviate the burden in operational costs of running the Institution.

Jalan 52/4 Peti Surat 223 (Jalan Sultan)
46720 Petaling Jaya
Selangor Darul Ehsan

The financial statements were approved and authorised for issue by the Council of the Institution of Engineers, Malaysia on 21st March 2011.

1. Principal activity

The principal activity of the Institution of Engineers, Malaysia is to promote and advance the science and profession of all aspects of engineering. There has been no significant change in the nature of this activity during the year. The principle activities of the subsidiary are stated in Note 4 to the financial statements.

2. Significant accounting policies

The following accounting policies are adopted by the Institution and are consistent with those adopted in previous years.

(a) Basis of measurement

The financial statements of the Institution of Engineers, Malaysia (hereafter referred to as "Institution"), excluding its branches' assets and liabilities and income and expenditure, and its subsidiary are prepared on the historical cost basis and in accordance with approved accounting standards and the constitution and by-laws of the Institution.

(b) Basis of consolidation

(i) Subsidiary

Subsidiary is an entity, including unincorporated entities, controlled by the Group. Control exists when the Group has the ability to exercise its power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable are taken into account. The subsidiary is consolidated using the purchase method of accounting.

Under the purchase method of accounting, the financial statements of the subsidiary is included in the consolidated financial statements from the date that control commences until the date that control ceases.

Investments in a subsidiary is stated in the Institution's balance sheet at cost less any impairment losses.

(ii) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements.

(c) Property, plant and equipment

Freehold land is stated at cost. All other property, plant and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses.

Property, plant and equipment retired from active use and held for disposal are stated at the lower of net book value and net realisable value.

Depreciation

Freehold land is not depreciated. Leasehold land and buildings are depreciated over the shorter of the lease term and their useful lives, unless it is reasonably that the Institution will obtain the ownership by end of the lease term. The straight-line method is used to depreciate the cost of the assets over the term of their estimated useful lives at the following principal annual rates:

Freehold buildings	2%
Leasehold land and buildings	2%
Furniture and fittings	5% - 20%
Office equipments	10% - 20%
Library books	10%
Building renovation	5%

(d) Receivables

Receivables are initially recognised at their cost when the contractual right to receive cash or another financial asset from another entity is established.

Subsequent to initial recognition, receivables are stated at cost less allowance for doubtful debts.

Receivables are not held for the purpose of trading.

(e) Subscription in arrears

Subscription in arrears of one year and more and where, in the opinion of the Council, are no longer recoverable from its members are written off to the statement of income and expenditure.

(f) Cash and bank balances

Cash and bank balances consist of cash on hand and balances and deposits with licensed banks which have an insignificant risk of changes in value, net of bank balances held in trust.

(g) Payables

Payables are measured initially and subsequently at cost. Payables are recognised when there is a contractual obligation to deliver cash or another financial asset to another entity.

(h) Loans and borrowings

Loans and borrowings are stated at amortised cost with any difference between the cost and redemption value being recognised in the statement of income and expenditure over the period of the loans and borrowings using the effective interest method.

(i) Taxation

Tax on the surplus or deficit for the year comprises current and deferred tax. Income tax is recognised in the statement of income and expenditure.

Current tax expense is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Temporary differences are not recognised for goodwill nor deductible for tax purposes and the initial recognition of assets or liabilities that at the time of the transaction affects neither accounting nor taxable profit. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantially enacted at the balance sheet date.

Deferred tax liability is recognised for any taxable temporary differences. A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which temporary differences can be utilised.

(j) Capital reserve fund

Fund raised from members for the purchase of property, plant and equipment are capitalised as Capital Reserve Fund.

(k) Capital contribution reserve

Entrance and transfer fees received from members are capitalised as Capital Reserve Fund in accordance with the constitution and by-laws of the Institution. A separate cash account has been kept for the reserve.

(l) Library fund

Subscription relating to periods beyond the current financial year is taken up in the Balance Sheet as subscription in advance under Current Liabilities. Subscription is payable in full irrespective of the date of resignation of members during the financial year.

(ii) Advertisement in Bulletin/Journal

Advertisement income receivable for the placement of advertisement in bulletin/journal published by the Institution is recognised when the right to receive payment is established.

(iii) Rental income

Rental income is recognised when the right to receive payment is established.

(iv) Credit cards commission

Credit cards commission from the banks is recognised when the right to receive payment is established.

(v) Interest income

Interest income is recognised in the statement of income and expenditure as it accrues, taking into account the effective yield on the asset.

(vi) Dividend income

Dividend income is recognised when the right to received payment is established.

(o) Interest expense

All interest expense is recognised in the statement of income and expenditure as it accrues, using effective interest method.

(p) Impairment of assets

The carrying amounts of assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. Impairment losses are recognised in the statement of income and expenditure. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit (groups of units) on a pro rata basis.

Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. Reversals of impairment losses are credited to the statement of income and expenditure in the year in which the reversals are recognised.

(q) Employee benefits

Short term employee benefits

Short-term employee benefit obligations in respect of salaries, annual bonuses, paid annual leave and sick leave are measured on an undiscounted basis and are expensed as the related service is provided.

A provision is recognised for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

The Group's contribution to statutory pension funds are charged to the statement of income and expenditure in the year to which they relate. Once the contributions have been paid, the Group has no further payment obligations.

Independent auditors' report to the members of The Institution of Engineers, Malaysia

Report on the Financial Statements

We have audited the financial statements of The Institution of Engineers, Malaysia, excluding its branches' assets and liabilities and income and expenditure (hereafter referred to as "Institution"), which comprise the balance sheet as at 31 December 2010 and the statement of income and expenditure, statement of recognised gains and losses and cash flow statement of the Group and of the Institution for the year then ended, and a summary of significant accounting policies and other explanatory information, as set out on pages 127 to 142.

Council's Responsibility for the Financial Statements

The Council of the Institution is responsible for the preparation of financial statements in accordance with approved accounting standards and the constitution and by-laws of the Institution, and for such internal control as the Council determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with approved standards on auditing in Malaysia. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Institution's preparation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Institution's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Council, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements are prepared, in all material respect, in accordance with approved accounting standards and the constitution and by-laws of the Institution.

Other Matters

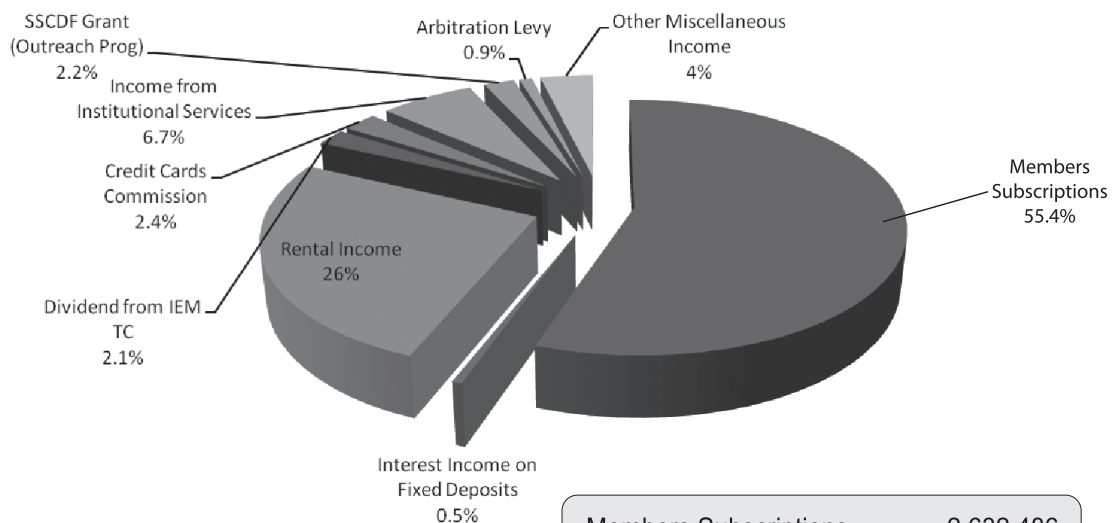

This report is made solely to the members of the Institution, as a body, and for no other purpose. We do not assume responsibility to any other person for the content of this report.
