

**Empowering Tomorrow's Engineers: Introduction to IEM**

By Ir. Ts. Sukhairul Nizam Abdul Razak

IEM Council Member 2024/2025

On the 14th of October 2023, the Institution of Engineers Malaysia (IEM) UTHM Student Chapter hosted a transformative session titled "Introduction to IEM" at the Dewan Terbuka UTHM. Over 500 aspiring engineering students gathered for an enlightening experience focused on the engineering profession and the role of IEM in shaping careers. The speaker is Mr. Ir. Ts. Sukhairul Nizam bin Abdul Razak from Engineering Education Technical Division IEM.

The session, running from 8:30 am to 12:30 pm, brought together students eager to explore the core principles and objectives of IEM. Through interactive discussions and engaging presentations, participants delved into the benefits of IEM membership, including access to professional networks and opportunities for continuous learning.

The event highlighted IEM as a catalyst for personal and professional growth, emphasising values such as integrity, excellence, and service. Students were encouraged to actively engage with IEM through student chapters and special interest groups, leveraging their talents to drive positive change within the engineering community.

The session concluded with a renewed sense of purpose among participants, inspired by the possibilities offered by IEM. As students departed, they carried with them a commitment to lifelong learning and a determination to make meaningful contributions to society through engineering excellence.
