

HALF DAY SEMINAR ON SUSTAINABLE AND HUMAN CENTRIC LIGHTING – INNOVATIONS FOR THE FUTURE

OCT 10, 2024

MALAKOFF AUDITORIUM.,
Ground Floor, Wisma IEM, PJ

9.00AM - 13.00PM

Limited to
100 Seats
only

BEM Approved CPD/PDP Hours: 3 Ref No: IEM24/HQ/441/S

**Mr Vijay
Venkatsubramaniam**

Mr Gaurav Yadav

Ms Roziah Hilal

Mr Aravind Krishnan Nair

Mr Arsalan Ahmed

As the world embraces environmentally conscious practices, sustainable and human-centric lighting is gaining significance. This approach focuses on creating lighting solutions that reduce energy consumption and carbon footprints while prioritizing human well-being. Innovations such as LED technology, smart lighting systems, and circadian rhythm-responsive designs are transforming how we illuminate our spaces. These advancements aim to improve comfort, productivity, and mood, aligning with natural human activity patterns. By combining sustainability with a focus on human needs, the lighting industry is set to revolutionize both residential and commercial environments. This strategy not only fosters healthier living and working conditions but also contributes to global climate change efforts. Looking forward, integrating sustainable practices and human-centric principles will be essential in shaping a brighter and more responsible future in lighting design.

Time	Detail
09:00 -09:30	Registration with Breakfast
09:30 -09:35	Welcome address by Signify Malaysia
09:35 -09:55	Sustainability: The role of Innovative Lighting Solutions
09:55 -10:30	Human Centric Lighting
10:30 -10:40	Break
10:40 -11:30	Bring Sustainable lighting solutions for Indoor Spaces
11:30 -11:40	Break
11:40 -12:25	Engineering the Future of Smart Cities and Urban Lighting Technology
12:25 - 12:30	Closing
12:30 -12:55	Product Showcase Tour
13:00 -14:00	Lunch & Networking

REGISTRATION FEES (SST 8% TO ADD)

IEM MEMBER : RM 50.00

NON-MEMBER: RM100.00
