WEBINAR

INTERNATIONAL ACCREDITATION & ENGINEERING MOBILITY

This talk will discuss on the global mobility of engineers and the movement of global engineering professionals who are capable of independent practices. The International Engineering Alliance (IEA) and the relevant agreements allow for mutual recognition of competence engineers to practice globally. The speaker will also share the route and process to become International Professional Engineers and APEC Engineers through APEC and IPEA Engineer Register as well as the mobility recognition in ASEAN regions. The benefits for mutual recognition of engineering professional for the global mobility will be discussed.
