

# CASH FLOW

**MISSION25**  
AGENDA 2030 TOWARDS A LOW CARBON FUTURE

## Sustainable Cashflow Simulation

### DESCRIPTION

This simulation aims to introduce participants to the challenges and opportunities of building a green economy through an engaging board game experience. Simulating real-world scenarios, participants will navigate financial and decision-making as they strive to develop careers aligned with sustainability goals. The program fosters a hands-on understanding of sustainable career development, emphasizing principles such as resource efficiency, ethical leadership, and economic growth. By blending education with interactive gameplay, this simulation equips participants with the skills and insights to make meaningful contributions to a sustainable future.
