Synopsis

ESG (Environmental, Social, and Governance) serves as a strategic framework for companies to achieve sustainable and ethical operations. It involves developing action plans, setting goals, monitoring progress, and transparently reporting outcomes. This process helps companies address sustainability challenges and provides stakeholders with clear insights into the company's direction and impact.

This hands-on workshop provides step-by-step training on writing basic sustainability reports aligned with the IEM Simplified ESG Disclosure Guidelines for the Built Environment. Participants will learn to structure reports effectively, identify material issues, set measurable goals, track progress, and craft transparent disclosures that meet stakeholder expectations. With practical exercises, templates, and best practices, the workshop equips attendees to develop clear, compliant sustainability reports, serving as a foundation for their organization's ongoing ESG journey.

Course Outline

Topic 1: How is ESG related to Economics and Financials?

- What is ESG?
- What is the benefit of implementing ESG in a company in terms of economics and financials?
- How does ESG determine business performance?

Topic 2: Hands-On workshop

- ESG Framework for Built Environment
 - i. General Disclosure
 - ii. Environment Disclosure

Topic 3: Hands-on workshop

- ESG Framework for Built Environment
 - iii. Social Disclosure
 - iv. Governance Disclosure
 - v. GHG Emissions (Scope 1, 2 and 3)
- **Conclusion**

Trainer Bio

Ir. TS DR LEONG KAH HON
Speaker

Ir Ts Dr Leong Kah Hon is an Associate Professor in the Department of Environmental Engineering, Faculty of Engineering and Green Technology at Universiti Tunku Abdul Rahman (UTAR) and a HRDF Accredited Trainer. He obtained his Doctor of Philosophy (Civil and Environmental Engineering) from Universiti Malaya and professional qualifications from the Board of Engineers Malaysia and Malaysia Board of Technologists. He practises his engineering in Singapore for three years before joining the education sector. His great contribution to the environment sustainability has awarded him the AAET Green Award 2021 (Malaysia). He has more than six years of experience in teaching. His effective and interactive training methods that emphasise hands-on approaches have earned him much recognition. He was also the recipient of UTAR Teaching Excellence Award in year 2021.
