

TECHNICAL VISIT TO INDUSTRIAL CONCRETE PRODUCTS SDN BHD FACTORY, KLANG, SELANGOR

Date/Day : 19th June 2025 (Thursday)
 Time : 9:00am to 12:30pm
 Venue : Industrial Concrete Products, Klang, Selangor

SYNOPSIS

As the largest manufacturer of Pretensioned High Strength Spun Concrete Piles in Southeast Asia, ICP Piles welcomes members of the Institution of Engineers Malaysia (IEM) Young Engineers Section (YES) to explore and discover advancing foundation solutions.

ICP operates 8 factories and 11 production lines across Peninsular Malaysia, producing a total capacity of two million tonnes annually. ICP Piles are circular hollow in cross-section and are manufactured in sizes ranging from diameter 250mm to 1,200mm with lengths varying from 6m to 54m in single piece. For large diameter piles, ICP has pile joining facility which is able to pre-join the piles up to 90m. ICP Piles are exported to Brunei, Singapore, Bangladesh, Sri Lanka, the Middle East, Indonesia, Pakistan, Philippines, Vietnam, Myanmar, USA, Canada, New Zealand, Maldives, and Samoa.

This visit is designed to introduce engineers to the production process of spun piles and the practical applications in construction projects. The focus will be on understanding how spun piles are applied in real-world scenarios, such as their use in foundation work, infrastructure projects, and their ability to perform under challenging conditions.
